Marshall Electric Company Peak Performance Maintenance Inquiry

A Peak Performance Maintenance (PPM) program is designed to prolong the life of your equipment, maintain proper operation, and reduce unnecessary breakdowns and repair costs under normal use and conditions. The equipment is inspected for proper operation and any potential malfunctions. Most repair work performed during the month for equipment that is on the PPM is at no additional labor cost.

If you are interested in a Peak Performance Maintenance program, please print out and complete the *Company Information and Equipment List* and fax it to us at 401-521-5560. Please send one list per store location.
